

In the claims:

- B3
1. (Amended) A golf swing training device, comprising:  
a template, the template having a top and a bottom; and,  
a graphic design attached to the template, the graphic design depicting (i) a plurality of club path indicators, (ii) a swing reference guide comprising a plurality of shot selection types, and (iii) a link between each one of the plurality of shot selection types and one of the club path indicators.
- B4
4. (Amended) The training device of Claim 1, wherein the club path indicators includes at least one of a primary club path, inside-out club path, outside-in club path or take away club path indicator.
5. (Amended) The training device of Claim 1, wherein the swing reference guide further comprises a club face angle indicator associated with each of the shot selection types.
- B5
9. (Amended) The training device of Claim 1, wherein the template is constructed of impact resistant plastic and coated with an ultraviolet protective layer.
20. (Amended) The device of Claim 1, wherein the graphic design is attached to a top surface of the template.
- B6
21. (Amended) The device of Claim 1, wherein the graphic design is attached to a bottom surface of the template.
22. (Amended) The device of Claim 1, wherein the graphic design is laminated within the template.
- B7
25. (New) The device of claim 5, wherein the link comprises a first insignia associated with at least one of the plurality of shot selection types and a corresponding insignia associated with at least one of the club path indicators.
26. (New) The device of claim 25, wherein the first insignia and corresponding insignia each comprise an alphanumeric character.

27. (New) The device of claim 5, wherein the link comprises the use of a plurality of colors, such that each of the club path indicators is formed in a color that is substantially the same as a color used for at least one shot selection type.
28. (New) The device of claim 27, wherein the graphic design depicting the plurality of shot selection types further comprises an illustration of a representative ball flight path for each of the plurality of shot selection types.
29. (New) The device of claim 28, further comprising a tee bore extending through the template and a generally longitudinal tee slot extending from the tee bore in a direction radially outward from the tee bore.
30. (New) The device of claim 29, wherein the graphic design further depicts a foot and ball position guide.
31. (New) The device of claim 30, further comprising a club face angle guide, the club face angle guide comprising a plurality of hash marks extending radially outward from the tee bore.
